

Shur-Gain

STABLE RELATIONS

The team - Coach Kelly Solowka, Riders Madison, Eden, Evelyn, Andi, Amber, and support, Rebecca and Sam.

Stable Relations was founded by Kelly Solowka in 2000, located on 25 acres of rolling hills in beautiful Caledon, Ontario. Kelly, who has over 30 years of experience, has based her business on respect and passion for horses and people who enjoy caring for them. Stable Relations motto is "Better Horses and Horsemanship for Fun and Performance".

Stable Relations is heavily involved in all aspects of Western and English pleasure horses, cutting horses and breeding high quality quarter horses. Their stallion, Snug Fittin Britches or "Ricky" is a 15.1 Hh, 1997 Dun Quarter horse who has it all. His correct movement, conformation, quiet disposition, and gorgeous colour has been passed to many of his foals. His foals are AQHA Incentive Fund and OQHBF eligible. As well, Kelly's daughters and students have very busy show seasons, winning many belt buckles, ribbons and awards. View it at www.stablerelations.ca.

Colt before using Shine...

Over a year ago, Stable Relations decided to make a change in their feeding program. The horses just weren't performing in top form and the young stock didn't seem to be growing. So Kelly decided to try Shur-Gain Equiline products from the advice of Hilary Croft, Shur-Gain Equine Feed Advisor and Davis Feed and Farm Supply in Caledon.

Colt after being on Shine!

"I have seen so many positive changes in my horses. My yearlings are growing and healthy. My performance horses have been keeping weight and shine during their demanding show seasons. Not only did Hilary understand my horse's needs, she understood mine as well. The horses love the feed and the knowledgeable service is priceless. Davis Feed and Farm Supply and Shur-Gain are always there to provide a helping hand, whenever I need it."

Stable Relations has their hay sampled and feed program specifically measured to provide the proper nutrition for a broad range of ages and needs. Kelly states "I love Shine, as it allows me to give extra fat, while maintaining the same ration. Xplosion has made a huge difference on my daughter's show horse as well. She has put on weight and her energy level has been maintained through the show season. I am so impressed!"

Davis Feed and Farm Supply and Shur-Gain would like to thank Kelly Solowka and Gerald MacLennan and wish them many more success stories to come.

Proof of Performance

Proven Performance with Equine Horse Feed
