Shur-Gain Easy Grow HF Beef Ration is a complete feed to be fed free choice to calves weighing 450 – 850 pounds. It can also be used as a hay stretcher when on farm supplies are low.

Feeding Directions:

Shur-Gain Easy Grow HF Beef Ration can be fed free choice to calves weighing 450 to 850 pounds along with on farm forages. Free choice salt should be available at all times. Cattle can then be moved to the finishing diet.

Shur-Gain Easy Grow HF Beef Ration can also be fed to the beef cow when hay supplies are low to meet their nutritional requirements. Feeding 4 pounds of easy grower ration will replace the energy intake of approximately 6 pounds of average grass hay. This ration can also be fed up to 5 pounds per day (along with on farm forages) to improve body condition and increase milk production. Free choice salt should be available at all times.

Features and Benefits:

1. Contains a high quality blend of ingredients that supply optimum levels of energy and protein.
2. Available with Rumensin, Bovatec, Deccox as an aid in the prevention of coccidiosis.
3. Contains minerals and vitamins to meet cattle requirements.
4. Economical alternative to buying off farm hay.
5. Will help to maintain and improve body condition in beef cows.
6. Increased milk production in lactating beef cows.
